Basic Alpine Rock Course Eastern Sierra Nevada, California Alpine Rock Course - 3 Days

Description: Alpine Rock Course focuses on the skills of a beginner or intermediate climber to get into the high alpine rock environment. Alpine rock has unique considerations that you don't find in gyms or crags and as such requires a unique skill set. In this course we will cover anchor building, belays, climbing techniques etc. Our Alpine Rock courses are three consecutive day trips, no need to carry heavy packs. Forest Service campgrounds located only minutes away from our daily meeting locations. Motels and Lodges are available in Mammoth Lakes, CA.

Departure: Mammoth Lakes, California

Group Size: 1-2 clients with 1 guide

Guide to client ratio: 2:1

Experience Level: Beginning to intermediate rock climbing skills. Guests should be able to hike 2-3 miles with a light pack at a moderate speed.

Itinerary: Day one starts with an 8:00 am meeting at Mammoth Lakes Forest Service Visitor Center (see map). Drive to our rock-climbing site, located a short distance away, where rock skills will be practiced until late afternoon (4:00–5:00 pm). Meet day two & three you will set up the meeting time and place for next few days objectives with your guide. Last day's departure on the last day is by 4:00 – 5:00 pm
